## OBJECTIVE

---

Eager software developer seeking Co-op opportunity to apply a diverse skill set, including proficiency in multiple programming languages, Git, and strong software development practices. My goal is to contribute technical expertise, collaborate on dynamic projects, and drive innovation while developing my skills and making a valuable impact.

## TECHNICAL SKILLS

---

- **Programming-Languages:** JavaScript • TypeScript • PHP • Python • C# • C • C++ • HTML • CSS
- **Frameworks:** ReactJS • Node.js • Vue.js • jQuery • ExpressJS • Angular • .Net • Magento • Laravel • Django-python • Bootstrap4
- **IDEs and Tools:** VS Code • Anaconda • Postman • Eclipse • Jupyter Notebook • Git / GitBash (Version Control Tool) • Jira
- **Others:** Algorithms • Data Structure • REST-APIs • GraphQL
- **Databases:** MongoDB • MySQL
- **Operating Systems:** Windows • Linux
- **Soft Skills:** Quick Learner • Enthusiastic • Good Communication and Presentation • love to explore new Tech • Innovative.

## CAREER-RELATED EXPERIENCE

---

### Software Developer (1.8 Years)

Aug 2020 - Apr 2022

Cybercom Creation

Gujarat, India

Website: <https://www.1stopbedrooms.com/>

**Skills:** PHP, Javascript, VueJs, jQuery, Magento, amChart, MySQL, Object-Oriented Programming, Testing, Git, Jira

- Worked with an agile team of fifteen on Magento (MVC) to handle various services like sales, create orders, edit orders, revenues for E-commerce Website
- Hands on experience in Optimizing and Creating MySQL queries
- Assisted in resolving multiple issues, leading to remarkable 40% overall improvement in website functionality and performance
- Troubleshooted and resolved software defects and issues in a timely manner
- Created multiple charts by integrating amChart API in the project
- Spearheaded the design and implementation of a robust and scalable comment functionality within the backend
- Performed multiple crons to auto perform tasks
- Collaborated with cross-functional teams to gather project requirements and translate them into technical specifications
- Demonstrated attention to detail in QA testing, identifying and resolving 100% of reported bugs and ensuring a flawless user experience
- Leveraged strong management skills to oversee a cross-functional team, coordinating tasks and timelines, and ensuring efficient resource allocation
- Utilized Microsoft Excel extensively to create and manage complex data queries and reports

## ACADEMIC PROJECTS

---

### E-Medicio (Php, jQuery, Bootstrap, Mysql, MVC) **LIVE**

- Created an intuitive full-stack web platform for users to access personalized fitness information.
- Implemented a feature that calculates and recommends diet plans based on users' BMI.
- Developed secure registration and login systems for both users and administrators.

### Feedback App (React, useContext, useState, Routes, Link, JSON-server) **LIVE**

- Created a Feedback Portal using React on which users can rate the service and write reviews.
- Feature to edit reviews along with average and count on total number of reviews is provided.

### Github Finder (React, useContext, useState, Link, Routes, REST-APIs)

- Web-app to search username in github and show top 30 results using github Rest-Apis.
- Rest-apis for getting user and its repositories information to render it on the user profile page.

### Parking Slot Booking System (PHP, MySQL, MVC)

- Portal for booking and management of parking slots for 4-wheelers in apartments or buildings.
- Users can search for available parking spots by location, date, and time.
- Maintains a parking history for all the past booking done by particular user.

## PROFESSIONAL CERTIFICATES

---

<b>Learning Python</b> - LinkedIn	<b>July 13, 2023</b>
<b>Javascript Essential Training</b> - LinkedIn	<b>Jan 28, 2023</b>
<b>NodeJs - The Complete Guide(MVC, REST API, Graph, Deno)</b> - Udemy	<b>July 4, 2022</b>
<b>React – The Complete Guide(inc Hooks, React Router, Redux)</b> - Udemy	<b>June 2, 2022</b>
<b>The Complete Javascript Course 2022</b> - Udemy	<b>May 19, 2022</b>

## EDUCATION

---

<b>Full Stack Software Development</b>	<b>Sep 2022 - April 2024</b>
<i>Lambton College</i>	<i>Mississauga, ON</i>
▪ Cumulative GPA: 3.49/4.00	
<b>Bachelor of Computer Engineering</b>	<b>Sep 2016 - Aug 2020</b>
<i>Gujarat Technological University</i>	<i>Gujarat, India</i>
▪ Cumulative GPA: 3.48/4.00
